OBJECTIVE

To seek the challenging career in the corporate world, where my knowledge and skills will be enhanced and optimized so as to be the asset rather than cost to the organization. Enthusiastic Third Year Electronics and Computer Engineering student with strong foundation in Java, Object Oriented Programming and Experience in building web applications through academic projects.

SKILLS AND INTERESTS

- **Programming Languages:**
- **Fronted Technologies:** HTML, CSS, JS
- **UI/UX Design:** Canva
- **Course Work:** Object Oriented Programming, Database Management System, Data Science
- **Behavioural Skills:** Team Player, Time Management, Organized, Adaptability and Continuous Learner

EDUCATIONAL

DEGREE	INSTITUTE	CGPA/PERCENTAGE	YEAR
Bachelor of Engineering	P.E.S Modern College of Engineering, Pune	6.0%	2022-2026
HSC	Dayanand Science College, Latur	63.80%	2022
SSC	Shri Shivaji Madhyamik Vidyalay, Kawthala	93.80%	2020

EXPERIENCE

Web Developer Intern | InternPe

- Designed and Developed Frontend web application using HTML, CSS created UI components enhancing interactivity and user experience.

PROJECTS

Bank Management System

- Developed a CRUD Banking application for managing Customer and Account related Data.
- The System enables efficient data handling, retrieval and updates using Java, JDBC and SQL.

Arduino-Based Goggles for Blind People

- This project focuses on designing and developing a smart wearable device using Arduino to assist visually impaired individuals in navigating their surroundings safely.
- The Arduino-based goggles use sensors and audio feedback to detect obstacles and alert the user in real time.

Saline Water Level Management System

- The Saline Water Level Management System is a smart healthcare project designed to monitor the level of saline in an IV bottle. It uses sensors to detect the saline level in real-time and alerts medical staff when the level is critically low.
- This prevents backflow of blood into the IV tube and ensures timely replacement of the bottle. The system reduces manual monitoring and can be enhanced with wireless alerts for better hospital efficiency.

CERTIFICATIONS

- **AWS Cloud – EduSkills**
- **EDUNET-Data Analysis**

INTEREST AND HOBBIES

- Photography
- Writing
- Learning new Technologies
